METHODS AND APPARATUS FOR SHARING REVENUE ASSOCIATED
WITH NEGATIVE COLLECTION INFORMATION

10

This application claims the benefit of U.S. Provisional Application No. 60/415,335, filed
10/1/2002.

TECHNICAL FIELD

15

The present invention relates in general to computer systems and, in particular, to methods and apparatus for electronically reporting credit information and for sharing revenue associated with negative collection information. The uploaded information is automatically tallied and reported via a computer that is configured to provide up-to-date, on demand information to a collection information supplier any time.

20

BACKGROUND

Often, when a person or company is extended financial credit and that credit is in default, the matter is turned over to a collection agency for resolution. Typically, the collection agency reports this "negative" credit information to a credit bureau once a month on a magnetic tape. However, most collection agencies are under no legal or financial obligation to report the negative collection information to the credit bureau. The credit bureau stores negative collection information collected from hundreds of collection agencies in a database. For a fee, subscribers to the database may access the negative collection information.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations, especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
